Sprint	Goal	Feature Name	Est. Size	Est. Remaining	Real Size	Real Remaining		
Release								
Total			117	117				
Sprints								
7	Finalization of MVP + AI ppreliminaries		40	117	37	117		
8	Preparation for feedback-loop + Initial AI Training		37	77	0	80		
9	Foundation of feedback-loop + Improving accuracy of AI output		40	40	0	80		
10	First draft of feedback-loop + Improving accuracy of AI output			0		80		
11	Improving first draft of feedback-loop			0		80		
12	Finalizing feedback-loop + Improving accuracy of AI output			0		80		
13	Finishing touches to the use and feel			0		80		
14	Preparing project retrospective			0		80		
Features								
7	**Finalization of MVP + AI ppreliminaries**							
		[BE] Attachement from Proxy to TalktixChatAPI	5		5			
		Refactor test data to include requestType	5		5			
		[FE] Creation of error messages	5		5			
		[FE] [BE] Text box for the email	5		5			
		AI Training preliminaries	8		5			
		Research "Confidence-Score" for NLPs	5		5			
		Create test data	5		5			
		Refactor test data by renaming location	2		2			
8	**Preparation for feedback-loop + Initial AI Training**							
		[EP] Proxy fixing	5					
		Update Chat GPT Prompt	2					
		[DB] Create User Database	3					
		[EP] Modifying Email Proxy to Recognize and Store .txt Files as Attachments	3					
		[FE] [BE] Create executable	8					
		[AI] First draft ticket creation	8					
		[BE] Set location based on user	3					
		Research on further possible suitable data sets	5					
9	**Foundation of feedback-loop + Improving accuracy of AI output**							
		[BE + AI] adjust ticket object and AI output	2					
		Adjust available data sets	5					
		Adjust voice recording	5					
		[AI] Improve accuracy of ticket output	8					
		[FE+BE] Creation of user profile	8					
		[FE+BE] Enquire for missing RequestType	8					
		[BE] Creation of Draft-mode	3					
		[FE] only german is used	1					
		Create Gmail Accounts						
		[EP] Ignore service emails from microsoft
